STANDARDS OF PROGRESS FOR FINANCIAL AID

To be eligible to receive financial aid a student must be making satisfactory progress in a course of study in an eligible program. The satisfactory progress requirement is not affected by previous non-receipt of aid. Academic Progress is reviewed once per year. Your status at the end of the summer term will determine if you qualify to receive financial aid for the next academic year. The academic year is Fall, Spring and Summer terms.

For entering, first time freshman students, the satisfactory progress requirements are met by being accepted as a regular student in an eligible program requiring that the student have a high school diploma, GED, or passing an approved Ability to Benefit test. (See Entrance Requirements 1, 2, and 4 in the Blinn catalog.) Student transferring from another college with less than a 2.0 GPA are admitted on scholastic probation and ineligible for financial aid. Thereafter, satisfactory progress is being made when meeting or exceeding a minimum quantity and quality of course work at Blinn College.

The **minimum quantity standard** requires that a student complete his/her program of study in not more than 150% of the time normally expected for completion. Therefore, financial aid cannot be received for course work beyond 150% of the semester hours required for the degree or certificate (96 hours). Hours earned include Developmental and transfer courses. In addition, students must complete 75% of enrolled courses.

The **minimum quality standard** requires that a student maintain at least a 2.00 cumulative grade point average on all work attempted.

The quantity and quality of transferred work is determined the same as had it been attempted at Blinn College.

The highest grade of a repeated course is used in determining quality, except that a grade of "W" or "WP" does not replace a grade of "F" or higher but a grade of "F" does replace a grade of "W" or "WP". Grades of "I" (incomplete) and "WF" are treated as grades of "F." A grade of "IP" in a Developmental Course is treated as a grade of "W". Hours earned in repeated courses count only once in determining quantity.

Financial Aid Probation: Following the first semester in which the standards of academic progress are not met, the student will be placed on financial aid probation. The student must sign a probation contract to regain financial aid eligibility.

Financial Aid Suspension: The student who fails to meet the standards of academic progress during the probationary semester will be placed on immediate suspension. Therefore these students will be placed on financial aid suspension. Should mitigating circumstances be a factor in unsatisfactory progress, appeal may be made to the Financial Aid Appeals Committee for consideration.

Appeals, along with any desired documentation must be submitted through the Financial Aid Office. In the event that the written appeal is denied, a student may personally appear before the committee for reconsideration by submitting a written request, which includes a current daytime phone number. The student will be notified of the time and location for appearance before the committee for final consideration of the appeal. No further appeals are permitted until the student's academic status (i.e., semester completion, grade change) has changed.

Appeals must be made in time for the Committee to meet, decide, and send the results to the financial aid office prior to the end of the payment period. A favorable ruling that arrives after the close of a payment period cannot lead to retroactive payment of aid for the closed payment period.

A student, who has been ineligible, may establish or re-establish eligibility by meeting the minimum quality and quantity requirements. Upon establishing or re-establishing eligibility, aid will not be received retroactively for periods of ineligibility.

It is the student's responsibility to notify the financial aid office when he or she believes that satisfactory progress has been regained.
