Access Tegrity from eCampus

- Log into eCampus and navigate to the course that contains the recording.
- Click the Tegrity link or button located in your course page.
- After clicking the Tegrity button, the Tegrity Recordings page for the course displays.
- Click on a recording title to view the recording.
- Click on the Start a Test button to launch the test recording option. The eCampus test must be opened in addition to starting the Tegrity recording.
- Click on a Start a Recording button to launch a recording session. This option is usually for a speech or other project recording assignment.
