MathXL is an interactive website where you can:

- Self-test & practice exercises to improve your math skills.
- Study more efficiently – personalized study plans and exercises that match your book.
- Get help WHEN you need it. MathXL includes multimedia learning aids like videos and animations.

What do you need to get started?

- A PC running Windows 95 or later
- Internet Explorer or Netscape browser
- An internet connection
- An Access Code
- The author, title and edition of your text

What steps do I take next?

If you bought a NEW book, take the access card that was packaged with the text and follow the steps below.

If you bought a USED book, you can purchase an access card at your bookstore or go to www.mathxl.com, select Buy Now (as shown above). Click Purchase online access and then, follow the steps below.

1) Go to www.mathxl.com & click on Register.
2) Enter your six-word student access code, zip code and country.
3) Fill in the requested personal information, and then create your unique Login Name and Password. It’s recommended that you use your email address as your login name.
4) After you’ve registered, login at www.mathxl.com and select your school.
5) If your instructor has set up a course for your class, you will need the name of your school, instructor and course. If your instructor has NOT set up a course for your class, you will need the textbook author, title and edition.
6) When the Installation Wizard pops up, read and follow all directions to install the needed software on your computer. Anytime you use a new computer, click Install in the top middle of the entry page and follow the Installation Wizard directions. This wizard will walk you through the installation of the software you will need to use the MathXL resources. Note: the software may already be installed in the school lab. Check with your lab administrator.
7) Technical problems? Call Tech Support at 800-677-6337, Monday – Friday 9am – 6pm EST.
