

Rules for the final exam for Professor Eby's classes Fall 2014

1. You will likely have assigned seats, so be prepared.
2. The exam is two hours, so if you need something to drink or snack on, bring it with you.
3. There will be NO restroom breaks. If you leave the room, you will be considered finished with your exam.
4. Bring a scantron. The Apperson DataLink 1200 that I showed in class. They are for sale in the bookstore and the learning center among other places.
5. Like the exams in class, NO CALCULATORS are allowed.
6. You will hand your scantron to me when I hand you the test to start. I will then hand out scantrons a few moments after the test has started.
7. This means that if you hand in an "ugly" scantron I will send you out to get a new one and you will miss time that you could work on the final exam.
8. Your final exam will include BOTH multiple choice questions and work out questions, so be prepared.
