Getting Started

- View account details
- Make a One-Time payment
- Set up a Payment Plan

If you make a One-Time Payment **BEFORE** you set up a Payment Plan, that payment **CANNOT** be used as part of your down payment for the Payment Plan.

If your down payment for a Payment Plan is not good for any reason (NSF, no such account, charge not authorized), you **WILL NOT** have a valid payment plan, and your classes are subject to being dropped for non-payment.

Once you have a valid Payment Plan, you do not have to make manual payments during the semester: Nelnet will do that for you.

Your payment plan **will adjust over the entire semester as changes occur**: For example, your payments will go down if you have additional financial aid, aid applied to your account, or you make a one-time payment on your account. Your payments will go up if you add classes, get parking tickets, or have other charges added to your student account.

Returned Payment Fee Policy

[Customer Service](#)

Returned Payment Fee Policy

What is a returned payment fee?

A returned payment fee is incurred by a consumer when a payment fails due to insufficient funds in a consumer's bank account or when a credit card is used for a scheduled payment and the credit card is either invalid or the credit limit is exceeded.

Our policy

As described in your payment plan terms and conditions, we will assess and automatically process a maximum returned payment fee of \$30 for each payment that fails.

Will I know if a returned payment fee is going to be charged to my account?

Yes, if you have a payment that fails, you will be notified of the failure. The notice will tell you the date on which a \$30 returned payment fee will be processed and the date on which the failed payment will be rescheduled (unless you take some action in the meantime to make the payment). If the \$30 returned payment fee fails, your account will be flagged and you will be asked to pay the fee the next time you are online to make a payment with us. If we detect a pattern of failed returned payment fees we may prohibit you from enrolling in payment plans administered by us in future years until the fees are paid.

Can I make up a failed payment before the rescheduled payment date?

Yes. You are always able to bring your account current by making a payment online or over the phone. Institution policy will determine if you are also able to pay in person, spread the failed payment across your remaining payments, or reschedule the failed payment for the end of your payment plan.

Will I be charged an overdraft fee by my bank if my payment fails?

That depends on your financial institution. We understand that fees can be burdensome, which is why we strongly encourage all payers to pay careful attention to their payment schedule and do everything they can to avoid failed payments.
