Student Engagement

Shelly Peacock

What is Student Engagement?

- "depict students' willingness to participate in routine school activities, such as attending class, submitting required work, and following teachers' directions in class."

Research

Research

- However, the term is also increasingly used to describe meaningful student involvement throughout the learning environment.

Research

Ice breakers

- First Day Ice breaker
- Making the student feel like they belong.

Research

- Test students' learning styles and use different techniques to teach
- Powerpoint
- Classroom Management 1 2

Research

- Peer Instruction: use students to explain concepts to other students
- Interactive games and quiz shows
- Increased interactions with students (group discussions as well as personal interaction).

Research

Conclusion

- The object of student engagement is to get the student to think about the subject matter in such a way that it is important to them.
- Anything goes!
