How the Library can Help You

1. Instruction Sessions
2. Course Reserves
3. Library Liaison Services
4. LibGuides

Librarians can show your students how to:

- Navigate the library website
- Find print and electronic resources
- Use effective research techniques
- Evaluate sources

1. Instruction Sessions

Encourage your students to get to know their library and librarians!!

- Librarians can help with individual research and reference assistance
- We are here to help
- We don't bite, honest!

2. Course Reserves

- The library course reserve system is a convenient way for faculty to make additional course materials available to their students.
- Types of “on reserve” items include books, supplemental readings, class notes, sample exams, and DVD’s.
- Most items check out for two hours and cannot be taken out of the library.
- For distance-education classes, the same book may need to be placed on reserve at all campuses

Liaisons will work with you to:

- Locate resources for your assignments
- Aid in collection development for your subject area
- Create specialized LibGuides for your course or assignment
- Embed links (and even a librarian) in your eCampus courses to aid student research and comprehension

3. Library Liaison Service

- Direct your students to our class and topic guides
- A librarian can make a LibGuide for your course
- LibGuides can even be embedded in an eCampus course

4. LibGuides

(Subject Research Guides)

What is a LibGuide?

- LibGuides are customizable online guides that provide information about a particular subject, assignment, or course of study.
- They bring together print and electronic resources that aid in research.
- They are created by us, your friendly librarians!
