

Service Learning Methodology

Is the project based in the following Service Learning methodology?

Preparedness (What components have you built into the project to prepare your students – both academically and in respect to cultural awareness?)

Action (What interaction will occur within the community that is directly linked to the curriculum and the desired student outcomes for the course?)

Reflection (What components have you built into the project that will require the student to reflect on the experience – for example writing, speaking, drawing, etc.?)

Recognition (What event will mark the experience in some manner – for example certificates, a ceremony,...)?

Evaluation (What assessment tool will be in place that directly links to the curriculum and desired student outcomes for the course? Include in your course proposal packet.

Remember that the Blinn College service project is optional.
