ITEM 13. REVIEW AND ACTION TO ACCEPT THE AUDIT FOR THE 2011-2012 FISCAL YEAR

Mrs. Miller introduced Mr. Dane Legg, Lott, Vernon & Company, P.C., and reviewed the Audit Committee Meeting which was held prior to the Board Meeting. Mr. Legg reviewed a summary of the audit findings (a copy of the Blinn College Annual Financial Report for the Fiscal Year Ended August 31, 2012 is attached and made a part of these Minutes). Blinn College received an unqualified opinion. Mr. Legg responded to questions from the Board.

On a motion by Mr. Borchardt, seconded by Mrs. Miller, the Board voted to accept the Audit for the 2011-2012 Fiscal Year as presented by the Administration.

ITEM 14. REVIEW AND ACTION TO AUTHORIZE THE ADMINISTRATION TO AWARD BID #903 FOR THE PURCHASE OF THREE (3) SUBURBANS

Mr. Ross Schroeder reviewed the need for three (3) eight-passenger sub urbans. Only one bid was submitted by LaRoche Chevrolet for a total cost of $98,691.00, less trade-in value of $58,500.00, for a net cost of $40,191.00 (copies of the bid tabulation sheet and LaRoche bid description are attached and made a part of these Minutes). Mrs. Miller pointed out that the Board should factor in the cost of buying out the lease on the 15-passenger vans of $46,424.63.

On a motion by Mr. Toubin, seconded by Dr. Boehm, the Board voted to award Bid #903 for the Purchase of three (3) Suburbans to LaRoche Chevrolet for a total cost of $98,691.00, as presented by the Administration.

REPORTS, ANNOUNCEMENTS, AND OTHER NON-ACTION ITEMS:

ITEM 15. REPORTS:

• BUILDINGS AND GROUNDS

Mr. O'Malley reviewed highlights of the written Buildings and Grounds report previously submitted (a copy of the report is attached and made a part of these Minutes). He responded to questions from the Board.

• Planning (Bryan Campus):
  o Building E, Student Center - the student activity half of the building was scheduled for a remodel to accommodate student activities; and the food service half of the building was scheduled to be updated and expanded to meet the growth of the campus. Both of these phases have been put on hold until the funding of these improvements can be budgeted. Update: The Facilities Staff along with the Director of Food Services met with a consulting firm that designs and plans food service operations. This firm was asked to analyze our existing food service operation and provide a cost estimate for any improvements to enhance food service and efficiencies in our present system.
Parking Lot Project - The College retained the services of Bleyl & Associates for the preliminary planning and eventual design of a surface lot. The Facilities Committee met with the developer to discuss a parking garage. The conclusion from that meeting was that a private developer would not be interested in investing capital into a parking garage on the Bryan Campus. The proposed 700-car garage would cost approximately $8,000,000.00 to construct and would be funded from either cash reserves or revenue bonds from the College. At this time, the Facilities Staff is evaluating all options before a formal recommendation is made to the Board.

Update: The Facilities Committee has determined that the immediate need for overflow parking should be accomplished by extending a commuter pathway across the creek and constructing 200-300 overflow parking spaces. Design has been initiated. The timeline for completion of this new overflow lot is July 2013. Once this project is complete, an additional assessment will be done to determine the need for a parking garage on the campus.

HVAC (Controls and VFD’S) - Funds have been budgeted in this fiscal year to improve the HVAC Controls System on the Bryan Campus. This project is in the very early discussion stage and awaiting information from Schneider Electric (our current vendor) before proceeding to the design and construction phase.

Elevator Upgrades - Funds have been budgeted in this fiscal year for elevator upgrades, the project has not started.

Landscaping/Irrigation System Upgrades - Funds have been budgeted in this fiscal year to improve the landscaping and turf on the Bryan Campus. The Facilities Staff is preparing a landscaping and turf plan that will be implemented in the Spring.

Administration Building Addition - This project was discussed in the Facilities Workshop with the Board. The project is still in the discussion stage with the Administration and Board, once authorization is affirmed the Facilities Staff will prepare an RFQ for professional services to hire an architectural firm for detail planning and design.

Classroom Utilization - The Facilities Staff has performed a limited classroom utilization study for the Bryan Campus. The results of this study will be available for use in a strategic plan for the campus.

Land Planning - The undeveloped acreage north of the campus and across the drainage way is not encumbered by the City of Bryan in regards to development by potential purchasers. The property does have an inordinate amount of easements that could be restrictive but we are not complete with any type of preliminary platting that would establish the useful acreage. This platting will go hand in hand with the parking lot location and once that is settled a better estimate of land use can be determined.

Banquet Room Lighting and Drapes - The Fine Arts Department uses the banquet room at least four (4) times per year for theatrical productions. At present, temporary stage lighting, extension cords and black plastic are used to transform the banquet room into a theater. The Facilities Department is researching a more permanent solution to provide this stage lighting and window screening while maintaining the aesthetics of the space.

Planning (Brenham Campus):

Classroom Utilization Study - The Facilities Staff is in the preliminary stage of developing a classroom utilization report for the Brenham Campus. The results of this study will be available for use in a strategic plan for the campus.

Energy Audit - The Facilities Staff is in the preliminary stage of performing an energy audit for the Brenham Campus.

Fitness Center - The Facilities Department and the Student Services Department are developing a plan to enhance student amenities on campus. One area identified by student groups as a need is a fitness center. At present, all student fitness center type activities take place in the Boehm Building and the typical student has to compete with the sports teams for use of equipment. Several ideas are being considered ranging from converting the James Atkinson Hall into a fitness center to constructing a new building for this
purpose. Once the study is complete, the Facilities Department will make a presentation to the Board with our findings and seek the Board’s approval for future developments.

- Spencer Hall Remodel/New Student Housing - This project was discussed in the Facilities Workshop with the Board. The project is still in the discussion stage with the Administration and Board, once authorization is affirmed, the Facilities Staff will prepare an RFQ for professional services to hire an architectural firm for detail planning and design.

- Saeger Street Extension - This project is actually a City of Brenham project, but the alignment and construction schedule have an immediate impact on the College as we develop the balance of our property adjacent to the College Park Apartments and Agricultural Complex. The City has engaged the services of O’Malley Engineers to survey the property and analyze potential routes from Old Mill Creek Road to Farewell Street. The City has no immediate plans to start design and construction on these improvements, but a sincere indication from the College of our desire to develop this property for student housing could trigger an accelerated schedule.

- Student Center/Old Main Fire Alarm Monitoring System - This project is in the preliminary planning stages and once more information is available, authorization from the Board will be sought to seek bids on construction.

- Memorial and Holleman Halls - Four options are being considered with these buildings: 1. Remodeling, 2. Demolish, 3. Lease or 4. Sell. The remodeling estimate is approximately $1,000,000.00 per building as discussed in the Facilities Workshop. The demolish cost is $4.00 - $6.00 per square foot-these buildings are approximately 8,500 square feet each, so the cost to demolish would range from $34,000.00 - $51,000.00 per building. The leasing option and the sell option have been discussed with both developers and real estate agents. No progress has been made to determine if these are viable options.

- Design (Bryan Campus):
  - The Administration Building Roof/Gutter Replacement - This project is in the preliminary design phase and once authorized by the Board, the Administration will seek bids for the construction of the improvements. The budget for these improvements is $250,000.00 and the funds have been budgeted in the 2012 - 2013 fiscal year.

- Design (Brenham Campus):
  - The Lighting Project for replacement lamps in the Student Center, O’Donnell Center, “Original” Band Hall, Heineke Gym, PE Building, Moody Library, and Old Main is in design and should be ready for bidding in January.
  - The Central Plant Improvement Project is in design and should be ready for bidding in December.
  - The Generator Project is under construction.
  - The Student Center Roof/Baseball Field Locker Room Roof is under construction.
  - The Student Housing Door Alarm Project is in design and will be bid in September. The construction of these improvements will be done in-house with the Facilities Staff.
