Re: Recommendation from the Texas Board of Nursing

On November 19, 2012, the Texas Board of Nursing performed the routine six-year survey visit to the Blinn College Vocational Nursing Education Program, Brenham campus. After reviewing the information collected from the site visit, the Texas Board of Nursing made the following recommendation:

Recommendation #1:

It is recommended that administration begin the process of secure additional faculty for the VN program in order to free the director for administrative duties as well as facilitate effective faculty instruction and reasonable faculty workloads. A response to this recommendation is to be submitted to Board staff by March 1, 2013.

In response, Blinn College administration and Vocational Nursing Program complied with the recommendation by adding one full-time faculty member to the faculty roster in fall 2013. This faculty position continues to be a part of the operating staff today.

Sincerely,
