Medical/Surgical Nursing II VNSG 1432

Purpose Statement

The primary purpose of Medical/Surgical Nursing II - VNSG 1432 is to prepare learners to assume entry level competencies of the vocational nurse.

Course Description

Continuation of Medical/Surgical Nursing I with application of the nursing process to the care of adult patients experiencing medical/surgical conditions in the health-illness continuum. Includes a variety of health care settings.

Topics include, but not limited to diagnosis/conditions that are common to the individual systems of the body including symptoms, diagnostic tests, medical-surgical treatment including nutrition needs, drug therapy and prognosis.

The course consists of: Four class hours. Credit: Four semester hours.

Prerequisite: successful completion of all first and second semester courses with a grade average of 75 percent or better.

Student Learning Outcomes

After completion of Medical/Surgical Nursing II - VNSG 1432, the student will:

- * explain the components of the health-illness continuum
- * assess prevalent medical-surgical conditions affecting the adult client
- * utilize the nursing process to assist in developing a plan of care for selected medical-surgical conditions
- * **discuss common medical diagnosis/conditions that are common to the individual systems of the body, including symptoms, diagnostic tests, medical/surgical treatment, including nutritional needs, drug therapy and prognosis**
- * **identify criteria for setting priorities in planning for the individual client with a medical and/or surgical condition**
- * **state appropriate sources of assistance within a work setting and the major community specific to common medical/surgical diagnosis**
- * **discuss the roles of family and significant others in providing support to the individual with a health care need**

SCANS

Secretary's Commission on Achieving Necessary Skills

SCANS is an attempt to help make courses more relevant to the needs of a modern work force. SCANS is divided into two types of skills: competencies and foundations. The competencies are the ability to manage resources, to work amicably and productively with others, to acquire and use information, to master complex systems, and to work with a variety of technologies. Foundation skills are organized into the basic literacy and computational skills, the thinking skills necessary to put knowledge to work, and the personal qualities that make workers dedicated and trustworthy. Both are required for successful performance in most jobs.

The following SCANS competencies and foundation skills are used in VNSG 1432: C1, C5, C6, C7, C8, C9, C14, C15, C16, F1, F2, F3, F4, F5, F6, F7, F8, F9, F10, F11, F12, F13, F15, F17 (see attached).

Learning Activities

Lectures, class discussions, student interactions such as group activities, lesson assignments, such as worksheets, workbooks, written and oral reports, medical- surgical case studies, audiovisuals, computer software/tutorials.

Grading System

Grading scale is as follows:

90 - 100 = A

80 - 89 = B

75 - 79 = C

Below 75 = F

WP = withdrawn passing

WF= withdrawn failing

Course consists of minimum of 4 major exams, daily grades and a final exam. Final course grade is determined as follows:

major exams 1/3,

*daily grade 1/3,

final exam 1/3.

*Consists of quizzes, objectives, designated student assignments, case studies.

Outcome Inventory

Evaluation on the success of this course includes satisfactory completion of course by the learner and successful completion of the National Council Licensure Examination – PN.

Calendar

Course material is distributed during the semester. Course timing is given the learner at the beginning of the course as outlined in the student information sheet.

Materials

Required:

Christensen, Barbara
Kockrow, Elaine
Adult Health Nursing
Fifth Edition
Mosby, Inc., 2006
St. Louis, MO

Roth, Ruth A.
Nutrition and Diet Therapy
Ninth Edition
Delmar Publishers, 2007
Albany, NY

VNSG 1432 Medical Surgical Nursing II

Course Description

Continuation of Medical/Surgical Nursing I with application of the nursing process to the care of adult patients experiencing medical/surgical conditions in the health-illness continuum. Includes a variety of health care settings.

Topics include, but not limited to diagnosis/conditions that are common to the individual systems of the body including symptoms, diagnostic tests, medical-surgical treatment including nutrition needs, drug therapy and prognosis.

The course consists of: Four class hours. Credit: Four semester hours.

Prerequisite: successful completion of all first and second semester courses with a grade average of 75 percent or better.

Baseline	Competency	Activity To Evaluate Baseline Competency
COMPETENCY STATEMENTS		
Resources	C 1	Completes assignments as instructed.
Information	C 5	Uses nursing process and applies to data collection
	C 6	Discuss holistic nursing and its application to individuals
	C 7	Discuss common medical diagnosis/conditions that are common to the individual systems of the body, including symptoms, diagnostic tests, medical/surgical treatments, including nutritional needs-drug therapy and prognosis.
Interpersonal Skills	C 8	Computer assignments are completed with a passing grade.
	C 9	Interacts with students and instructors in-group activities. Role of health care worker as member of a team.
Systems	C 14	Interact with students and instructors in-group activities.
	C 15	Discuss common medical diagnosis/conditions that are common to the individual systems of the body, including symptoms, diagnostic tests, medical/surgical treatments, including nutritional needs-drug therapy and prognosis.
	C 16	Uses critical thinking with question on exams.
FOUNDATION SKILLS		
Basic Skills	F 1	Reading assignments
	F 2	Prepare reports
	F 3	Drug calculations using basic math skills.
	F 4	Drug calculations using higher math skills.
	F 5	Discuss therapeutic communication techniques while interacting with the client, his/her family and members of the health care team.
	F 6	Presents reports with groups using innovating ways to present material and utilize critical thinking skills.

Thinking Skills	F 7	Presents reports with groups using innovating ways to present material and utilize critical thinking skills.
	F 8	Completes assignments and exams
	F 9	Utilize critical thinking with questions on exams
	F 10	Relates to the nursing process in meeting the needs of the client with a medical/surgical condition.
	F 11	Complete assignments and exams
	F 12	Utilize critical thinking with questions on exams
Personal Qualities	F 13	Complete assignments and exams
	F 15	Presents reports with groups using innovating ways to present material and utilize critical thinking skills.
	F 17	Completes all assignments with honesty

NOTE: Student must meet all baseline competencies to pass the course. The above named student _____ has _____ has not mastered all baseline competencies for this course.
