Blinn Student WPA2 SSID for Windows 7

NOTE - Setting up your own wireless access points at Blinn College is against Blinn Colleges Fair Use Policy -

https://www.blinn.edu/acadtech/resnet/AcceptableUsePolicyFINAL.htm

NOTE – Before attempting to setup your wireless device connection on BlinnStudentWPA2 first go to password.blinn.edu (from a campus or your home PC) – Logon and answer the two challenge questions to complete your password account setup and change your Blinn password if you haven’t already done so – DO NOT SKIP THIS STEP!

Click on the Windows Start button

Open the Control Panel applet

Click on View Network Status and Tasks under Network and Internet, open Manage Wireless Networks

Click on Add

In the Network Name box type in BlinnStudentWPA2

In the Security Type box select WPA2-Enterprise

In the Encryption Type box select either AES or TKIP

Click on Next

Click on Change Connection Settings

Click on the Security tab.

Click on Settings button, and then uncheck Validate server certificate

Click on the Configure… button

Uncheck Automatically use my Windows logon name and password, and then click on OK

Click on the Advanced Settings button, check the Specify Authentication Mode box, and then select User Authentication from the pull down menu

Click on the Save Credentials button, and type in your Student Email ID (Example: first.last12@buc.blinn.edu), and your MyBlinn Password, click on OK (2 times), and then click on Close
