Blinn Student WPA2 SSID for Windows Vista

NOTE - Setting up your own wireless access points at Blinn College is against Blinn Colleges Fair Use Policy -

https://www.blinn.edu/acadtech/resnet/AcceptableUsePolicyFINAL.htm

NOTE – Before attempting to setup your wireless device connection on BlinnStudentWPA2 first go to password.blinn.edu (from a campus or your home PC) – Logon and answer the two challenge questions to complete your password account setup and change your Blinn password if you haven’t already done so – **DO NOT SKIP THIS STEP!**

Click on the **Windows Start button**

Open the **Control Panel** applet

Click on **View Network Status and Tasks** under **Network and Internet**, open **Manage Wireless Networks**

Click on **Add**

In the **Network Name** box type in **BlinnStudentWPA2**

In the **Security Type** box select **WPA2-Enterprise**

In the **Encryption Type** box select either **AES** or **TKIP**

Click on **Next**

Click on **Change Connection Settings**

Click on the **Security** tab.

Click on **Settings** button, and then **uncheck** **Validate server certificate**

Click on the **Configure…** button

**Uncheck** **Automatically use my Windows logon name and password**, and then click on **OK**

Click on the **Advanced Settings** button, **check** the **Specify Authentication Mode** box, and then select **User Authentication** from the pull down menu

Shortly you should get a pop up message on your wireless icon in your icon tray - Click on this message and type in your **Student Email ID** (Example: first.last12@buc.blinn.edu), and your **MyBlinn Password**, click on **OK**, and then click on **Close**
