END OF COURSE INFORMATION

We are approaching the end of the semester. **You must turn in all your late work before final exams begin.** I do not have time to grade late work while I am grading final exams.

The schedule on this paper will be the schedule of times I will be giving my finals. Please refer to this schedule. I will be giving all my finals in Room G121 or G122. **You will need to sign up for one of these times.**

**You may not take your final in the learning center** because it is closed for testing during finals. **You may not take your final late** because I have to turn my grades in. **If you do not come to take your final at one of these times, you will not receive a grade.**

We are going to be finishing the last of the new material, and we are going to begin reviewing for your post-test which is included on final exam after you take your fourth exam. You should spend a lot of time studying the review sheets and quizzes. Practice is the key to doing well on your final exam.

**If you do well on the final exam, it will greatly affect your overall grade in the course!** If you can indicate that you have learned the things you have been having trouble with before, I will take that into consideration when I compute your final course grade. However, if you do poorly on the final, it will indicate that you have not mastered the material that you are supposed to have learned in this course.

The final exam should not be difficult if you have been doing your daily work through out the semester. There will be 20 multiple-choice questions included on your final exam. The 20 multiple choice questions are called the post-test. They will be mixed with other questions; therefore **you must show all your work on the exam. I will be grading what you show on the exam paper.** You must provide your own scantron so please buy one and bring it to class when you come to take your final. I will include some questions of my own on the exam that are not multiple choice. You will fill out your scantron by **putting your name and section number on it** before you come to take your final. You will turn in the scantron at the beginning of class. You will complete the entire exam then you will come up and get your scantron and fill it our after you have finished your exam. You will then turn
in both the scantron and the final exam. **You must show all work on the exam for all questions to get credit for them.**

**On final exam day, please bring:**

1. A graphing calculator as you will need it,
2. A pencil,
3. A scantron,
4. Your course packet that you bought in the copy center that we have been working on everyday in class,
5. Your last section of homework for your final homework grade with a high-lighted textbook assignment sheet indicating which assignments you have completed.
6. Any and all old exams you have not turned in.

I will give you a packet grade so bring your packet with all pop tests and worksheets in it that you have completed. Please do not forget to bring your packet. The grade on it is worth a lot of points!!! You will receive a zero for your packet grade if you do not bring it.

You should check the library for old exams to give you an idea of what you might expect. The review we will be doing at the end of the semester should be a tremendous help to you. Please plan on getting together and working in-groups to study for your final.

**Good luck! I have enjoyed having all of you as students. I hope that you have not only learned something about mathematics but also about becoming a better student by being more organized with your study materials, recognizing the importance of regular attendance to class, doing some group work, and taking advantage of tutoring offered by Blinn College. I wish you all the best in future mathematics classes. Perhaps some of the skills you have hopefully learned in this class will be of some assistance to you in life.**

If you want to know your final grade you may send me an E-mail "judybwagner@hotmail.com" and I will E-mail your grade to you. Please give me a day to two to get your finals graded.
FINAL EXAM SCHEDULE

Note: The learning center is not available for testing during finals so you must finish in class.

Thursday, May 6 10:15 AM – 2:45 PM, I will be giving two finals back to back in room G121. You may come for two hours any time during the testing time. If you think you will need extra time, come early and stay as long as you like. No one will be allowed to begin an exam after 12:45 PM. I will pick up exams at 2:45 PM. Please sign up to come early or late, “early” 10:15 AM or “late” 2:45 PM. The early time is the regular exam time for M0312-54 (TT 10:35 – 11:50 AM class); and the later time is for M0312-58 (TT 1:25 - 2:40 PM class).

Monday, May 10th, 12:45 PM – 5:15 PM, I will be giving two finals back to back in room G122. You may come for two hours any time during the testing time. If you think you will need extra time, come early and stay as long as you like. No one will be allowed to begin an exam after 3:13 PM. I will pick up exams at 5:15 PM. Please sign up to come early or late, “early” 12:45 PM. or “late” 3:15 PM. The early time is the regular exam time for M1314-39 (MW 12:00 Noon – 1:15 PM class); and the later time is for M1314-43 (MW 2:50 PM – 4:05 PM class);

Tuesday, May 11th, 10:15 AM – 12:15 PM, I will be testing in Room G121. This is the regular exam time for M0312-56 (TT 12:00 Noon – 1:15 PM class)

Please pick a time that is convenient for you to take your exam. Hopefully, you will not all pick the same time to take your final because 100 + people will not fit into any room at the same time! There are only 34 chairs in the room. Please try to come to take your final at the time for which you have signed up.

If you have a problem with this schedule, please see me before final exams begin May 6th.

Best wishes to you in all that you encounter.
