Dallas TeleLearning has recorded a Wimba Training session to guide you through operation of the Digital Resource Repository. Listed below is information on viewing this session.

Web log-in information: You will need a computer with access to the web and computer speakers.

- To log into the pre-recorded web conference click on the link below:

  *if the link does not work when clicked on, cut and paste it into your web browser

- Enter your name in Participant Login and click "Enter" (do not enter anything in the "username" or "password" fields)

- **At this time you will need to run the Setup Wizard.** All participants must run the Setup Wizard found at the entry page to the web conference link listed above. Running the Setup Wizard will take several minutes and downloading of additional software may be necessary. Pop-up blockers will need to be turned off. We have had problems with the Google Toolbar pop-blockers. Please make sure this block is turned off also.

- To enter the Wimba Classroom session, again enter your name in Participant Login and click "Enter" (do not enter anything in the "username" or "password" fields)

- The session should automatically start within a couple of seconds and will continue through each section automatically. If not, click Archive Start in the top right area. Below is a sample of the screen you will see for this session.

To close session simply click Exit at the bottom of the screen.
