SUBJECT: Financial Support for Student Organizations

The college, through the offices of the Director Student Activities (Brenham campus) and the Student Activities Coordinator and Dean of Student Services (Bryan campus), will provide a faculty sponsor for all organizations. Any sponsor who is not a faculty member must be approved by the Executive Council. Phi Theta Kappa and Student Government Association sponsors must also be approved by the Executive Council. Registration and room and board will be paid for organization sponsors on all approved trips. Additional financial support from college funds is based upon the nature of the organization, the type and frequency of the activities in which it engages, the size of its membership, and the frequency and distance to its state and national meetings. These guidelines are subject to revision each spring and are used by the student organizations in making budget requests.

Any exception to these financial support guidelines will be made by recommendation from the Director of Student Activities (Brenham campus), Student Activities Coordinator and Dean of Student Services (Bryan campus) to the Vice President of Student Services and must be approved in writing by the President of the college in advance of any expenditure or obligation for travel.

Expenditures for organizations should be executed via purchase requisitions, trip tickets, and travel expense forms. All forms should be completed and signed by organization sponsors prior to purchases, events, and trips. They are then submitted to the Director of Student Activities (Brenham campus) and the Student Activities Coordinator (Bryan campus) for a budget code and signature and forwarded through the approval and payment process.
