Notes & Comments

ADV = Upper-level courses; 3000/4000. You must complete a minimum of 36 semester hours of upper-level courses to graduate. Lower-level courses = 1000/2000; equivalents may be taken at the community college.

1. Please refer to the university catalog for policies, course descriptions, and pre-requisite information.
2. Not taking specified coursework may result in additional requirements. Meet with an admission counselor regularly to verify that you are on track to transfer.
3. A minimum of **120 total semester credit hours** must be completed to earn a Bachelor's degree.
4. Foreign language coursework is preferably completed in the same language. A maximum of two languages are accepted. Conversational courses are not acceptable for this requirement.

Admission to the Education Preparation Program is required. Must have completed 45 hours including ENGL 1301, ENGL 1302, MATH 1314, HIST 1301, HIST 1302 and 2 Life & Physical Sciences with a C or better. Must have a cumulative GPA of 2.75 and qualifying scores in Reading, Writing, and Mathematics. Students who do not meet teacher preparation and certification requirements may be required to switch to a non-certification degree plan.

MGMT 4370 Decision and Business Policy	3
ADV Business Elective	3

The purpose of the Bachelor of Applied Arts and Sciences (B.A.A.S.) is to offer students with formal training in a vocational-technical studies area the opportunity to obtain a baccalaureate degree without the significant loss of credits that normally occurs in pursuing a traditional degree.

BAAS Degree Requirements

The student must complete a baccalaureate degree plan (120 semester hours minimum) consisting of 36 hours in residence and transfer credit which includes the following:

General Education, Prerequisites and Electives (42 to 66 semester hours): This component is made up of freshman and sophomore-level courses which meet each of the criteria identified by the university as important aspects of a general education listed in the Core Curriculum. **Area of Specialization** (18-42 semester hours): Credits toward the area of specialization may be earned from regionally accredited junior or community colleges and vocational or technical schools; credits may also be earned through armed forces training when that work can be equated to college credit.

Professional Development (36 semester hours): The courses taken in this area are to be chosen to provide academic depth and breadth to the area of specialization and, in addition, afford substantive developmental knowledge in the student's professional career goals. The component focuses on areas of learning directly related to upward mobility and further extends a student's knowledge, skill and expertise. Please refer to the catalog for academic requirements and course descriptions (<http://www.tamusa.edu/provost/universitycatalog.html>).

ADV = Upper-level courses; 3000/4000. You must complete a minimum of 36 semester hours of upper-level courses to graduate.

The purpose of the Bachelor of Applied Arts and Sciences (B.A.A.S.) is to offer students with formal training in a vocational-technical studies area the opportunity to obtain a baccalaureate degree without the significant loss of credits that normally occurs in pursuing a traditional degree.

BAAS Degree Requirements

The student must complete a baccalaureate degree plan (120 semester hours minimum) consisting of 36 hours in residence and transfer credit which includes the following:

General Education, Prerequisites and Electives (42 to 66 semester hours): This component is made up of freshman and sophomore-level courses which meet each of the criteria identified by the university as important aspects of a general education listed in the Core Curriculum. **Area of Specialization** (18-42 semester hours): Credits toward the area of specialization may be earned from regionally accredited junior or community colleges and vocational or technical schools; credits may also be earned through armed forces training when that work can be equated to college credit.

Professional Development (36 semester hours): The courses taken in this area are to be chosen to provide academic depth and breadth to the area of specialization and, in addition, afford substantive developmental knowledge in the student's professional career goals. The component focuses on areas of learning directly related to upward mobility and further extends a student's knowledge, skill and expertise.
